SunSi Energies Inc. Launches New Website

New York, June 24, 2009 – SunSi Energies Inc. (OTCBB: SSIE) announced today that it has launched its new website at www.sunsienergies.com.

The new website was designed to provide additional information on the company and its business activities. The site offers a user-friendly layout and is divided into three basic sections:

- **About Us** – Designed to introduce visitors to the company and its management team; this section also features pictures of the Trichlorosilane facility in China.
- **Products** – As a company focused on the production of Trichlorosilane (TCS) by acquisition and expansion, this section allows visitors to familiarize themselves with the unique utilization of this product in the production of polysilicon for the semiconductor and solar industry.
- **Investors** – This section is used as the Investor Relations center and provides information to visitors and shareholders about SunSi Energies' stock, as well as recent news releases.

For more information about SunSi Energies Inc. and its new website, visit www.sunsienergies.com.

About SunSi Energies Inc. ("SunSi")

SunSi Energies Inc. aims to acquire and develop a portfolio of high quality Trichlorosilane (TCS) producing facilities that are strategically located and possess a potential for future growth and expansion. SunSi's first transaction has been launched in China through the acquisition of 90% of a well-established Trichlorosilane facility. Relatively unknown, but essential to the solar industry, Trichlorosilane is the main feedstock of the solar industry, used in the production of polysilicon. With this acquisition, it is believed that SunSi becomes the first and only "pure play" public company in the world honed on the production of Trichlorosilane. SunSi Energies Inc. is traded on the NASDAQ OTC Bulletin Board under the ticker SSIE. For additional information, please visit the Company's website: www.sunsienergies.com

Forward-looking Statements: This news release contains forward-looking statements related to the future financial condition and results of SunSi's operations. These statements are based on current expectations and estimates about the trichlorosilane markets and industry in which SunSi operates, as well as management's beliefs and assumptions regarding these markets. These statements are subject to important risks and uncertainties, which are difficult to predict, and assumptions which may prove to

be inaccurate. Some of the factors that could cause results or events to differ materially from current expectations include, but are not limited to: general economic conditions, market or business conditions; changing competitive environment; changing regulatory conditions or requirements; changing technology; and success in implementing productivity initiatives. Some of these factors are largely beyond the control of SunSi. Should any factor impact SunSi in an unexpected manner, or should assumptions underlying the forward-looking statements prove incorrect, the actual results or events may differ materially from the results or events predicted. All of the forward-looking statements made in this document are qualified by these cautionary statements, therefore, there can be no assurance that the results or developments anticipated by SunSi will be realized or, even if substantially realized, that they will have the expected consequences for SunSi. Readers should not place undue reliance on any forward-looking statements. Furthermore, SunSi disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or any other occurrence.
